The first player from each team will start with half the team's stack (5000) in Level 1; the second player will then swap over to play Level 2 and add on the other half (5000). Should the first player be eliminated during Level 1, the second player will come in with the other half of their team's stack and play out the remainder of Level 1 and then Level 2 so the order of play remains unchanged. From this point, if a team is eliminated again and wishes to re-enter, the team will be given their full stack (10,000), however the order of play must remain unchanged (i.e. the player that was eliminated will resume with the full stack).

Play will move to nine-handed as soon as possible. The final table will be 10-handed. **Blinds and breaks may be adjusted at the discretion of the Tournament Director without notice.**
